

## **International Training Workshop for Developing Countries on Scientific Data Management and Sustainable Development**

The International Training Workshop for Developing Countries on Scientific Data Management and Sustainable Development was held at Computer Network Information Center (CNIC) from July 16th to 31st, 2012. All the participants are engaged in scientific data research that came from developing countries, including Vietnam, India, Afghanistan, Thailand, Mongolia, Nepal, Indonesia, South Africa and Zimbabwe.

The training workshop was co-sponsored by Committee on Data for Science and Technology (CODATA) and Chinese Academy of Sciences (CAS), organized by CNIC, CODATA Secretariat, Center for International Earth Science Information Network (CIESIN), Columbia University. Dr. Huadong Guo, President of CODATA, Dr. Bob Chen, CODATA Secretary General, Dr. Zhenyu Wang from CAS, attended and made welcome speech on opening ceremony. Dr. Bob Chen and Dr. Zhenyu Wang also gave keynote lectures on the first day of Training Period.

The training workshop focuses on scientific data lifecycle management and sustainable develop & usage, based on the experiences which provided by CODATA and CAS in the scientific data management, sharing and practice. The training workshop offers hands-on training on optimized data management methods and information technologies for research community.
